SUMMARY

AI Engineer Intern and Researcher with a foundation in Energy Engineering, Renewable Energy, and Hydrogen Technologies, combined with hands-on experience in software and web development. Advanced clean energy solutions through analysis of data centre energy consumption, electrochemical water splitting, and CO₂ reduction technologies, while also exploring biomass gasification and biofuel pathways. Developed applications including website generators and AI-powered SEO platforms, demonstrating leadership and project management as a Campus Ambassador and Research Intern.

SKILLS

Renewable Energy & Hydrogen Technology

- Hydrogen systems
- Green hydrogen policy
- Biomass gasification
- Biomass analysis

Electrochemical & Analytical Instrumentation

- Cyclic voltammetry
- Conductometric titrations
- Temperature sensors

- Butler-Volmer applications
- Software & Web Development
- Core Development: Full Stack Web Development.
- Git management
- Text editor architecture
- Leadership & Volunteering
- Technical writing
- Youth development

EXPERIENCE

CAMPUS AMBASSADOR, 05/2026 - Current QOLLABB, NEW DELHI, INDIA

- Represented Qollabb on campus, increasing platform awareness and fostering student engagement through targeted outreach.
- Enhanced brand visibility through strategic social media campaigns and peer-to-peer networking efforts.
- Organized and promoted events, workshops, and initiatives, strengthening community presence and enhancing student involvement.
- Acted as a liaison between students and the company, gathering feedback and sharing insights to improve outreach strategies.
- Developed leadership, communication, and marketing skills while contributing to Qollabb's mission of collaboration and innovation.

AI ENGINEER INTERN, 04/2026 - Current**QUILD, NEW DELHI, INDIA**

Created AI-driven tools that bridge technology and business growth.

- ◆ **KeilHQ** – Building solutions that streamline workflows and enhance productivity.
- ◆ **PodSoft** – Designing tools that make content creation and distribution smarter and more efficient.

RESEARCH AND PROMOTION INTERN, 05/2026 - 08/2026**EVEPAPER, NEW DELHI, INDIA**

- Conducted market research to identify trends, audience preferences, and opportunities for growth.
- Assisted in developing promotional strategies to enhance brand visibility and engagement.
- Collaborated with the content and marketing teams to design campaigns that aligned with organizational goals.
- Analyzed performance metrics to evaluate the effectiveness of promotional activities.
- Strengthened skills in research, digital marketing, and strategic communication while contributing to Evepaper's mission of innovation and outreach.

RESEARCH INTERN, 06/2026 - 07/2026**International Institute Of SDGS & Public Policy Research, NEW DELHI, INDIA**

- Conducted research on environmental sustainability, climate change, and ecological conservation initiatives.
- Assisted in data collection, analysis, and preparation of reports to support ongoing projects.
- Collaborated with senior researchers to design methodologies and evaluate environmental policies.
- Contributed to drafting research papers, presentations, and knowledge-sharing sessions.
- Developed strong analytical, problem-solving, and technical writing skills while working in a multidisciplinary team.

PROMPT ENGINEER INTERN, 05/2026 - 06/2026**Future Intern, NEW DELHI, INDIA**

I'm thrilled to share that I have successfully developed three innovative platforms designed to empower businesses and creators in the digital space.

3 AI-Powered Created an SEO generator that assists users in optimizing blog content for search engines. – Simplifying blog and content optimization to boost visibility and drive organic growth.

2 UGC Ad Generator – Enabling brands to harness the power of user-generated content for authentic and engaging advertising.

1 Website Generator – Helping local businesses easily create and launch their own websites with minimal effort.

These projects reflect my passion for building tools that make technology more accessible and impactful for businesses of all sizes.

- Website Generator
- UGC Ad Generator
- SEO Generator

EDUCATION AND TRAINING

UNIVERSITY SCHOOL OF CHEMICAL TECHNOLOGY, GGSIPU, NEW DELHI

Bachelor of Technology (Hons. With Research): Energy Engineering

- 9.42 GPA IN 3rd SEM.
- Specialized in **Energy Engineering** with a strong focus on sustainable energy systems, power generation, and efficiency optimization.
- Working on an **honors-level research project** in energy engineering, contributing to advancements in renewable energy technologies and sustainable practices.
- Gaining hands-on experience in data analysis, simulation tools, and experimental methods for energy systems.
- Developed expertise in energy policy, environmental impact assessment, and innovative engineering solutions for clean energy.
- Strengthened problem-solving, analytical, and technical writing skills through research and project work.
- Projects and Research:

1 AI for Energy Consumption: Developed insights into scalable solutions for energy-efficient infrastructure management.

- **2 Electrochemical Water Splitting:** Researched hydrogen production methods using electrochemical processes to advance clean energy solutions.

3 CO₂ Reduction Technologies: Investigated innovative approaches for carbon capture and reduction to support climate change mitigation.

4 White Hydrogen – Scope in India: Explored the potential of naturally occurring hydrogen reserves in India, assessing feasibility and future opportunities for sustainable energy.

- Member of The Stanford Energy Club, CSR Club, Srijan Science Club, NSS.
- Online Learning: Completed Aspire Leaders Program, Quild Cohort 2.0 for AI ORCHESTRATION, Completed 30+ GOOGLE CLOUD SKILL BOOST AND CLASS CENTRAL online courses.

ASPIRE, Cambridge, Massachusetts, USA, Expected in 04/2027

ASPIRE LEADERS PROGRAM

- Selected to participate in a prestigious leadership program designed for emerging changemakers worldwide.
- Engaged in interactive workshops, mentorship sessions, and peer collaborations focused on leadership, innovation, and social impact.
- Developed skills in critical thinking, cross-cultural communication, and problem-solving through real-world case studies.
- Contributed to discussions on global challenges and explored strategies for sustainable development and inclusive growth.
- Strengthened professional network by connecting with international peers, industry leaders, and mentors.

LANGUAGES

English:	C2	Hindi:	Native
Proficient (C2)		Native	

AWARDS & HONORS

- TOP PERFORMER IN ASPIRE LEADERS PROGRAMS
- RANK-1 IN 11TH AND 12TH STANDARD
- STATE CHAMPION IN VBLYD2026, MY BHARAT BUDGET QUEST

ACTIVITIES

- MY Bharat National Volunteer Framework- Community Leadership, Task Design & Execution
- Fullstack Software Development- Independent Project Execution, Open Source Collaboration
- Independent Scientific Research- Technical Writing
